Dear Mr. Loiselle;

In regard to your letter of August 2 of this year concerning Federal Facilities listed for the Bureau of Land Management (BLM) in Alaska, this matter has been addressed between our two agencies at the Washington Office level. The BLM has issued a nationwide contract for preliminary assessments, site investigations as warranted, and submitted the schedule to EPA's Washington Office. This schedule has been approved by your agency. Results of the inspections will be submitted to EPA in the fall of this year as per that schedule.

The sites in Alaska which are included on the contract are Dump Station 12, Slana Dump Site, and Tangle Lakes Dump Site. The Loran Station on Sitkinak Island is the responsibility of the U.S. Coast Guard, as BLM has maintained in the past.

If you have any further questions on this matter, please contact Ron Huntsinger, Hazardous Materials Coordinator for the Alaska State Office of the BLM, at (907) 271-3356.

- Called BLM on 8/22/88 @

- Huntsinger out of office,
I requested a return call.

- ASKED for Boden, he was on
phone, asked for return call.
Secretary said he would
call.
